Press Release:
Taopix Recruits Three New Team Members

Newcastle upon Tyne, United Kingdom: 13 July 2015

Personalised photo gift software developer, Taopix, has recruited three new members to its busy R&D team based at its headquarters in Newcastle upon Tyne.

Stu Hope, Simon Pearson and Ben Hope will each play an important role within the department and have responsibilities for product development and, in particular, the HTML5 online designer and e-commerce platform.

Faye Stephenson, Taopix Managing Director, says “We’re delighted to welcome the guys to the team. We’ve been looking for the right calibre applicants for months now but we got there in the end. We’re looking forward to their contribution and hopefully their input will mean that even more profit generating features can be delivered to our worldwide customer base.”

About Taopix:

Taopix Limited is a privately funded software development company established in 2007 by CEO James Gray and CTO Kevin Gale. Taopix HQ is based in the UK – in Newcastle upon Tyne. The company also has international offices in Japan and the USA.

The company is solely involved in the development, sale and support of its innovative photo book and photo gift software platform typically deployed by photo gift retailers and photo finishing companies.

A global network of 15 distributors, operating in over 30 countries, has been established to meet the demand for sales and support of the Taopix solution.

Strategic partners have also been established with leading digital print manufacturers, photo printing solution providers and finishing equipment manufacturers to drive sales and promote awareness of Taopix worldwide.
